

New for HealthFlex in 2021

To better serve you into the future, we have made the following updates:

We've lowered the out-of-pocket maximums for all HRA and HSA plans—Most people never reach the out-of-pocket maximum, but now it's the same for most plans. Don't let fear of the unknown prevent you from picking a plan that may save you more money. All plans protect you from catastrophic costs.

Consistent pharmacy benefits across

all plans: We have lowered co-payments for generics and slightly raised co-insurance for brand medications. Talk to your doctor about whether you can save money and stay healthy with generic meds.

WageWorks becomes HealthEquity: WageWorks was previously acquired by HealthEquity, and now that change is more evident. New FSA-HSA cards will be teal and say "HealthEquity Healthcare card." If you still have an orange and blue WageWorks card, it will continue to work until it is expired, then it will be replaced with the teal card. Also, look out for a more user-friendly health account dashboard—still available with no additional username/password starting at wespath.org.

Out-of-network benefits: While in-network services are more cost-effective, there is still coverage for out-of-network services in all plans. Now, the out-of-network deductibles and out-of-pocket maximums are 2x the in-network deductible and out-of-pocket maximums for all plans so it's easier to understand.

Highlights

Don't forget to take advantage of these in 2021:
